### Record Shipbuilding.

A recent and notable instance of expedition in ship construction is the completion of seven gunboats for the Spanish Government by Messrs. J. and G. Thomson, of Clydebank. These vessels, which are each of some 300 tons measurement, 140 feet in length, and of about twelve knots speed, are to be used in suppressing the insurrection in Cuba; and it was stipulated in the contract that the whole seven vessels should be delivered within three months. The preliminary examination of W. J. Sheridan and Dr. Frank Underwood was again postponed yesterday morning. The District Court is still closed, out of respect to the memory of the late Judge Bickerton, and will probably not convene until tomorrow.
